DYNAMITE,

A CITY SHAKEN AS IF BY AN EARTHQUAKE. A Car Laden With Dynamite--- A Fear fal Wreck Scattered Around-

The Particulars. STRATFORD, Ont., May 5, -This morning the whole town was shaken as if by the shock of an earthquake. Windows were blown in, and even the sidewalk upon which the people were walking was shaken so as to cause pedestrians to fall. The cause was soon made apparent. A car laden with dynamite had exploded at the Grand Trunk freight yard. The wreck made by the explosion beggars description. Underneath the dynamite car a hole several feet deep had been scooped out. The end of the brick freight shed and a portion of its roof were blown down. Several frame buildings were leveled to the ground and long lines of freight cars lying in the yard were utterly wrecked. The business part of the town is nearly a mile from the scene of the explosion, but it shared in the disaster. Valuable plate glass windows were blown in, frames and all. The damage done to property is estimated at many thousand dollars. Two railway employes were working in the yard, Frank Lemaine, of Montreal, and Thomas Dolan. of Stratford, were blown into fragments, the foot of one of them being found 200 yards off. Others were injured but the whole extent of the disaster cannot be known for some time yet.

The damage done by the explosion is much greater than was expected. The houses around the freight shed were nearly all wooden buildings, and several were blown into minute fragments; some fifty cars were blown up into splinters, and as many more were damaged. Mr. Flynn, the checker, is among the badly injured. A fragment of iron weighing over a pound was driven through the window of the Crown Hotel, half a mile distant. The shock was felt in all the surrounding towns, and was supposed to be an earthquake. The car upon which the explosion oc-curred was freighted at Montreal for Amherstburg, and contained thirty packages which were entered as blasting powder. They were shipped on ac-count of Vanderbiit, to be used in blasting at the Detroit tunnel. When the explosion occurred the cars were being shunted in the yard. The damage will exceed \$25,000. George Hawkins, a car dealer, had both his eyes put out by splinters and is not expected to live. James Humphrey is badly cut about the head and face, but may recover, Alfred Lamb was badly injured.

WASHINGTON, May 5 .- SENATE-The Senate shortly after meeting resumed theory, and no two persons can agree the consideration of bill to prevent the on what it is or where it belongs. The introduction of contagious or infectious diseases into the United States. Eaton introduced a bill similar to l that in the House to prohibit military interference at elections, which was re-

ferred to the Judiciary committee. The Senate committee on Appropriations, to day, nearly completed their consideration of the Legislative, Executive and Judicial Appropriation bill, and expect to report it back to the Senate to-morrow. The committee have stricken from the bill the clause by which the House proposes to require the Secretary of the Treasury to issue immediately in payment of arrearages of pensions the ten millions dollars of legal tender notes now held as a special fund for redemption of fractional currency. The committee have also amended the bill so as to restore the number and pay of the Senate employes to the present figures which the House has proposed to reduce. No change has been made in the political sections of the bill. The bill introduced to-day by Senator Voorhees to amend certain sections of the revised statutes relating to coinage and coin and bullion certifi cates for other purposes is substantially a copy of the Warner bill as reported with amendments from the House Coinage committee. Discussions of which commenced last Saturday in the House of Representatives, where it is still pending. The Senate Judiciary committee devoted their meeting this morning to a further consideration of the nomination of R. Stage Driver Distanced in Story Telling.

The way the snow yet hangs on, writes a correspondent of the Spring-field Republican, reminds me of a yarn which is told at the expense of a driver of stages between North Adams and Williamston, Mass., that happened last winter. The road was badly drifted and locomotion was slow. "You have considerable snow up here?" the passenger said, pointing to a long stretch of level before them. Jehu re-plied: "Do you see that cut ahead of you, and then that flat?" The stranger saw it. "Well," he continued, "I don't suppose you'd believe it, but I have seen snow on that flat forty-foot deep Richmond Dispatch 5th. for four months!" and he rolled his eye was. But the stranger didn't smile; he wasn't at all abashed; but quietly remarke i: "Well, that's pretty deep, I confers her each stand up to be sentenced. In the mean time he was marke i: "Well, that's pretty deep, I confess, but out where I came from we have deeper snows than that. And then neither of them smiled, and the remainder of the journey was made in silence.

THE TRIAL OF COX.

THE PARTICULARS OF SATUR-DAYS PROCEEDINGS.

Cox Makes a Statement-A Partner in Business with Alston---Alston Fired First.

ATLANTA, May 3.—The testimony in the Cox case to-day took a general range to bring up all loose ends and complete the prosecution. Upon either side the impeachment of the witness Grand Trunk Railway freight sheds were blown up by the explosion of nitroglycerine. Several men were killed. One hundred and fifty cars were mity in testifying as he did. The stenographer and members of the coroner's jury testified that Sams' statement was so swore.

He keard the shooting and came

Murphy testified to letting Alston have the pistol. It was an English self-cocking tranter-made. Alston agreed not to meet Cox at the barber-shop. He confirmed Howard as to be-ing in the dark room and what they were in there for; accounted for the dis-appearance of the pistol used by saying he picked it up and kept it—kept it by the advice of a lawyer, now of the de-fendant's counsel. He produced the istol in Court.

Toba Williams (colored) testified to Cox and Alston having a quarrel in the barber-shop previous to the killing.

Contracts existing between Cox and Gordon were introduced in the evidence.

Senator Gordon was not put upon the witness stand. Cox made a full and lengthy statement to the Court and jury. He sat down in a chair and spoke fluently and deliberately, giving his early history, ment in the infernal regions. In fact education, record in the war as a sol-everybody who hears it has a different dier, and subsequent life as a farmer. After the war, some years, he settled in DeKalb county, near to Alston, bought his farm there on Alston's account, and from that they were bosom friends. In 1876 Senator Gordon was embarrassed, and interested defendant in the convict lease, he to have half the profits. Alston drew up the contract. He took in Aston as a silent partner, he to give Alston half of all he out of any business, and Alston to di-When within a short distance of it he fired at it with his rifle, the ball passing through the neck and killing it. Defendant asked \$3,000 for his interest, as Alston had told him he would hold him forty-four bales of cotton for the year's rental. Walters refused to buy at that price, and as an inducement to defendant to sell to Walters for \$1,500, Alston agreed to release defendant from payment af the cotton. At the parber shop Alston told defendant, 'You have made a good thing out of this, and the \$200 agreed fee for making the sale was not enough for him." He said he had saved Cox the cotton, and Cox ought to give him half, or twenty-two bales. Defendant replied that all

his property was under mortgage, and this would take bread from his wife nd children. Alston threatened to top the trade. Defendant threatened to expose the convict business, and all the parties to it, and also Alston's action about it in the Legislature. Alston said that he would kill the defendant if he did, and called him a liar. Defendant threatened to knock him down. Alston told defendant to arm himself and meet him at some place and fight it out. He did arm and return at the time fixed; sent word to Alston and received Alston's message; went then to the capitol to make Alston agree to settle up their business relations finally, and not for the purpose of fighting Alston. The latter met him, and they had a talk: testified to the acceptance of Alston's proposal to fight defendant; said he would board the next train with him. Alston said, "Do you want to shoot it out?" He replied, "Any way that suited him." Alston said, "Do you want to shoot now?" and rose. Defendant was at the door with a view of leaving. Alston drew his pistol and he drew his. Alston fired twice and struck him in the mouth, which shot knocked him to the floor. Alston shot him in the hand. He was dazed by the shock; his head buzzed, and he could not hear the shots. As soon as he could do so, he rose and fired at the largest bulk of Alston he could see through the smoke; saw Alston sink down. He only shot Alston in self-defence. He was his best friend and did not want to

kill him. The case was adjourned until Monday when argument will be given. Three of the strongest counsel will argue or each side. The interest in the trial has grown to be universal, but public sentiment is nearly wholly against Cox, but his counsel are sanguine.

As to the charge that I was moved by malice in taking the life of the deceased, I do, in the name of Heaven, again plead not guilty. Let me say it in the fear of God and as I value my soul's salvation, I had no desire or wish to take his life;and every feeling which I may have had was crowded from my show that Alston and wife opposed the mind by the all-absorbinging thought marriage, and Sams was moved by engiven law of self-defence alone controlled my actions.

In closing I thank your Honor from my heart for your sincere and feeling expessions of sympathy. THE READING. In the beginning Poindexter read in a firm and distinct voice, which could be easily heard in all parts of the

court-room. When he got to the sentence "I do, in the name of Heaven, again plead not guilty," his voice rang in clear, strong, and emphatic tones. There was pathos in uttering "gladly would I give half my days," and "I ask that charity may be extended to me and others." But when he came to speak of the heaviness of the chastisement his words began to choke it his throat and he was greatly agitated, and it was only by extraordinary effort that he was able to proceed. As it was, a few words were stifled in ut-terance.

This paper was prepared by prisoner without any help from counsel Hats and hands were placed before many faces as the prisoner closed and with head bowed, awaiting the dread sentence.

Democracy.

The following letter has been received by the committee appointed at the Belmont conference, on April 5, to present to ex-Gov. Seymour the views of the conference on the present condition of politics, and ast his acceptance of the nomination for governor at the coming state convention: "Urfca, April 28, 1879.—Gentlemen: I have received your letter in regard to political affairs While Lam craticied with the good wil and confidence expressed by you and by those you represent, I cannot be a candidate for nomination by the Democrat State Convention for the office of governor. While there are many objections in my mind to such action, there is one fact which puts it out of the question. Even in the improbable event of unanimous nomination I could not accept it, as my impaired health makes it impossible for me to perform the duties of any official position or to continue to take any active part in pub-lic affairs. I regret that fears are fel by any that controversies will disturb the action of the Democratic party and peril its success. I trust that the dele gates to the convention representing more than half a million voters and their varied interests in every town, county and district in the State will lay aside all passions and prejudices, and by discreet action secure that control which I think fairly belongs to the party; that they will not sacrifice the right of the many to the interests and passions of the few. A wise policy is de-manded, not only by party interests, but by higher considerations. Political organizationtions involve many grave duties and relationships of citizens to our system of government. They are the outgrowth of its genius, and are es sential to its success. They array the American people into divisions that lead to discussions and keep alive the intelligence about all thing which concern the general welfare. It is a public misfortune when personal passions or interests in either of the great parties turn their attention from questions of general importance. At no time in the history of our country has there been a greater need of calm, thoughtful and patriotic action to arrest the dangers of sectional passions. In view of those serious questions which now occupy the public mind, I hope the fears you express, that the controversies wil bring defeat to the Democratic party will prove unfounded. I beg you will express to those you represent my gratification with their kind and cor-dial expressions of regard to myself.

What is the outlook, Judge? The campaign of 1880 is approaching,

and material for it must be found. The people are anxious to turn their atten-tion to questions of finance, of trade, of currency, and of political economy. Both parties are responsible for the present condition of affairs. The Republican party has long since ceased to cover its guilt, but openly and shame-lessly boasts of its own wickedness. But the Democratic party has until re-cently sneaked in the dark and dodged from the view of an inquiring and despairing people, and are now preparing to take the Government in 1880 on the cry of fraud, by showing how it was

What are the prospects in the South?

The ascendancy of Bourbon Democracy in the South is a menace to free institutions. It means retrogression and reaction. It means a return in some form to those manners and cus-toms under which humble birth was a calamity, which nothing but the grave could conquer, and honest toil a dis-grace for which nothing but wealth could atone. Already there are signs indicating that the Bourbon slave pow-er of the South is preparing to strike hands with the money-power of the North for a common assault on the rights of labor. Does the appearance of Bourbon Senators with hard-money tenets from the cotton States mean nothing? The old slave power and the nothing? The old slave power and the new are uniting against us. The Greenback policy would disenthrall labor, make the rates of money cheap and the payment of debts easy, increase values, put money within the reach of men of small means, and thus lead to the baronial estates of the South, and the diminution of the power of the week.

SERVATIVE BUT FIRM. What policy the Democratic party will pursue in reference to the appropriation bills since the Presidents action vetoing the army bill has not been positively determined at this writing. Expressions from caucus and other sources, however, makes it certain that the policy when mapped out will be conservative, patriotic and honorable to the great Democratic party.

Differences of opinion will of necessity exist, but the party, will be harmonious as clearly shown in the proceed ings of the House caucus. Each and all of the members composing the majority in the House and Senate have the best interests of the country in view, knowing that they serve the party best who serve their country best. It is believed by some, that the best course to pursue, is to pass the Army Appropriation Bill again, with the repealing clause attached, and if the President shall again veto it, then adjourn. Others incline to the passage of a resolution, continuing the Army Appropriations and the Appropriations for the Legislative, Judicial and Executive departments, as passed by the 2nd session of the 45th Congress, to next December, and then adjourn; others favor the passage of these appropriation bills as such pure and simple, without any repealing clauses attached, but prior to so doing, enact by separate bills, a law repealing the laws that allow the use of troops at the polls, and marshalls and their deputies, and modifying the power of supervisors.

From the present out-look, this latter course seems to have the most followers. It is not necessary to vindicate the honor, and maintain the esprit de corps of the great national Democratic party, that Congress should refuse to pass necessary appropriation bills unless objectionable laws should be repealed. It is true that during the long debate now about ended, some enthusiastic speakers declaimed their determination to repeal these laws or die in the ditch. Such speeches are marshall and stirring, but the Democratic party has a mission to perform, co-extensive with the life of the Republic, and is not prepared to die, nor see the Government die, when a safe and good way can be devised to best serve the interests of the people, and at the same time, protect the ballot box. And if the Democrats at this time should fail to remove and expurge dangerous and objectionable statutes, an honest effort has been made to do so, and the party can appeal to the country, where such an issue must meet with favor, unless the people have already in their hearts sur- Tremendous Shipments of Tobacco. probable therefore that the result will be a passage of separate repealing bills, and then the appropriation bills, to be followed by adjournment. If the President approves these bills it will be well have won another victory for the people. If the President disapproves and vetces the bills, then an appeal will be taken to the people and the issue will be clear and distinct. Shall the executive power be permitted to control the elections, by marshalls and bayonets? If the Democrats can't win a victory on that issue, then a victory on any other

The effort to drive men from their duty, and to prevent calm and deliber ate action in this grave crisis by the cry of cowardice, which is sometimes heard will not succeed. The majority must rule, and that majority must see to it that the Democratic party in its efforts to protect the freedom and purity of the ballot box, does nothing that may be an offence to any portion of the country. The people are tired of strife. and as far as possible it must be avoid ed. The people are not fools, and are quite capable of seeing that in this struggle the Democrats are making their fight. The issue is already made. The freedom and purity of elections and a fair and honest count. No more sectional strife, but concord and peace throughout all our borders. The repeal of all laws engendered and enacted by the hates of the past, and a wholesome readjustment of the financial and tariff laws. The democrats for; the republicans against; and the people to decide. This is the gauge of battle that the democracy takes up, and here we make our fight.

A WORD ABOUT THE CITY.

The News has a right to claim to be an impartial critic of the affairs and administration of the city of Raleigh. In the past it has had occasion to condemn the action of certain of its officers and to demand an investigation of their accounts. To-day it can cordially congratulate the citizens of Raleigh upon the exhibit made by the retiring Board and published in Sunday's News.

Since the Democracy obtained possession of the city government in 1875, the reduction of expenses has been marked and encouraging. The debt has been funded in bonds, bearing six per cent. interest, instead of the eight per cent. paid heretofore. The Sinking Fund has increased from a merely nominal sum in 1875, to twenty-six thousand dollars. The expenses have been reduced within a fraction of the receipts, and over seven thousand dollars of interest is counted among the expenses. The books of the Clerk are perfect models of clear and accurate work, there being a treple check upon each officer, the amount expended upon each department can be ascertained at a glance, and the entire transactions of the city are conducted upon the strictest business principles.

We do not desire to be understood as asserting that perfection has been attained, or that there is not an urgent necessity for the strictest economy in the operations of the city for the ensuing year. But we do say that its financial management, due for the most part to J. C. Blake, Esq., Chairman of the Finance Committee, and the refunding of its deb in bonds bearing a lower rate of interest, have been conducted in a manner de-

country. The people can decide. The New Theory of Meteorites.

There is one planet of the solar sysem which has a special claim to consideration. On that planet it is true that a olcano would be required which was apable of giving an initial velocity of at least six miles per second; but every projectile launched from that volcano nto space would, after accomplishing an elliptic orbit around the sun, dash through the track of the earth, and again pass through the same point at every subsequent revolution. It is not here a case of one solitary projectile out of 50,000 crossing the earth's track, but every one of the 50,000 possesses the same property. The planet of which we are speaking is, of course, the earth itself. If in ancient times there were olossal volcanoes on the surface of the earth which had sufficient explosive energy to drive missiles upward with a elocity sufficient to carry them away from the earth's surface, after making llowance for the resistance of the air. these missiles would then continue to nove in orbits around the sun, crossing at each revolution the point of the earth's track from which they were originally discharged. If this were the ease, then, doubtless, there are now myriads of these projectiles moving brough the solar system, the only ommen feature of their orbits being that they all intersect the earth's track. t will, of course, now and then happen hat the earth and the projectile meet at the point of crossing, and then we have he phenomenon of the descent of a meteorite. This theory, that the meteorites have originated in the earth, was, far as I know, first put forward by Dr. Phipson. Mr. J. Lawrence Smith in a letter I received from him some months ago, inclines to the same view as at all events one of the probable ources. It is well to note here the great difference between the lunar the ry of meteorites and the terrestrial theory. For the lunar theory to be true it would probably be necessary that the unar volcanoes should still be active. In the terrestrial theory it is only necessary to suppose that the volcanoes on the earth once possessed sufficient exlosive energy. No one supposes that the volcanoes on the earth at present eject the fragments which will constitute future meteorites, but it seems probable that the earth may be now lowly gathering back in these quiet times the fragments she ejected in an early stage of her history. Assuming, therefore, that the meteorites have had a quasi-volcanic origin on some considerable celestial body, I am led to agree with those who believe that most prob ably that body is the earth .- Robert S. Ball, in Nature.

The railroads are anticipating within the next few days the largest shipments of tobacco they have ever made. In fact arrangements have already been made for the transportation to South ern points of several hundred car loads. o-night and others will pass through as the railroads can carry them. The bacco comes from Lynchburg, Danville. Richmond and other points on he Virginia Midland and Richmond & Danville lines. The cause of these un-usually heavy shipments is that the reluction of eight cents on the pound in the tax went into effect the 1st of May, and all manufacturers have been holdng their tobacco in the factories so as to reap the benefits of the reduced rates. Even before the reduction was made by longress, manufacturers had stopped shipments except in small quantities to regular customers, in anticipation of some reduction, and have been taking rders for delivery after the 1st of May In this way many of the larger factories nave accumulated thousands of pounds, which must be disposed of in the speed iest possible manner. It will probably be many years before there are such large shipments again.

Mining Notes.

The mining board met last night at the office of Gen. Drayton. Only rou-tine business was done. Parties were present, recently from New York, who gave an account of the mining outlook in the Northern cities, as well as a deailed statement of recent experiments

n treating gold ores. The mining work in this State has opened vigorously. The newly elected manager of the King's Mountain mine, Mr. Macy, has just returned to the mine. A vigorous effort has been made to free the mine from the water, which has for some little time stopped work; the level of the water has been reduced several eet already.

A new body of sulphurets has been eut at the Rudisill mine. Work at the McGinn mine has been suspended, pending some legal

The body of ore in the Duffle mine improves on further exploration, and is shown to be of great width. The shipments of bullion to this city from the mountain counties show that reater attention has been given to pla-

cer mining than heretofore.

A new body of good grade ore is reported as recently opened in the Yadin mine at Salisbury. Several parties of investors are in the State; three of them are from Boston, each having their own expert. Several properties are under examination.

Altogether North Carolina mines are exciting a full share of attention

Two Hundred and Fifty Thousand

Mr. W. M. Russ, of the agricultural department, came to the city yesterday morning with two hundred and fifty housand young fish which were de signed for distribution in streams and ponds along the Air Line Railroad. On arriving at the depot here, the water in the cans in which the fish were transported was changed, and a few hours afterwards an examination showed that every fish in the cans was dead. This water was taken from the well at the depot, and so far as known is as pure as any in the city. The cause of the death of the fish is a mystery.

LIVER PILLS

FOR THE CURE OF Hepatitis, or Liver Complaint,

DYSPAPSIA AND SICK HEADACHE

)AIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been exten-

DR. C. McLane's LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every haif hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but corried through the veins to all parts of the system, and in trying to escape through the porces of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice Chills, Malavial Fevers, Piles, Sick and Sour Stomach, and general debility follow. Markettl's Hebratism, the great vegetable discovery for torpidity, causes the Liver to throw off from one to vo onnees of bile en't time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yelle w complexion or a brown dirty tooking skin, will astonish all who try it—they being the first symptoms to disappear. The teure of all bilious diseases and Liver complaint is made certain by taking Hepatine in accordade certain by taking HERATINE in accord-with directions. WORM SPECIFIC

VERMIFUGE.

SYMPTOMS OF WORMS.

PHE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach: occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally

irritable, &c. Whenever the above symptoms are found to exist,

DR. C. McLANE'S VERMIFUGE will certainly effect a cure. IT DOES NOT CONTAIN MERCURY in any form; it is an innocent preparation, not capable of doing the slightest injury to the most tender infant.

LOCAL BRIEFS.

-Business was quite brisk yesterday, as many people from the country -Strange to say no bonds were re

ceived at the State Treasury yesterday —The election produced but slight excitement, and little interest was

-The Governor yesterday appointed D. C. Waddell, of Asheville, a Notary

-Provision should be made for filling all the cisterns with rain water from the housetops.

-Col. Bridgers, Pre i lent of th W. & W. R. R., is in the city, as is also Dr. W. J. Hawkins.

-The Grand Lodge of the State of the Independent Order of Odd Fellows meets in Fayetteville on the 13th inst. -Rev. Arthur Williams, (col.,) of the Second Baptist Church, baptized three colored converts Sunday.

—The Internal Revenue collections yesterday were \$17,377.58. This shows how the reduced tobacco tax works. -It is prophesied that the coming

summer will be marked by the number of its thunder storms, so the timid had best look out. The members of the Monogram

Club are requested to meet at 7:45 this evening, to make arrangements for the pic-nic. -Bishop Lyman preached Sunday

morning at Christ Church, and in the

evening at the Church of the Good Shepherd. Gen. Thos. L. Clingman sailed from New York last Friday, on the Steamer Bothnia, for Liverpool. He goes out

for both pleasure and business. -Nearly 2,400 scholars are in at tendance on the schools of this city Raleigh makes the best showing in th State, in this respect, but should do

even better. -Drummers' licenses were yester day issued by the State Treasurer to the following firms, all of Baltimore: Isaac Greenbaum & Sons; Boykin, Carmer & Co., and Corbin & Fulton.

-Dr. Blacknall gave his guests capital dinner at the Yarboro Sunday, which did Mr. Lewellen, the caterer, great credit in its preparation. Spring peas and strawberries were two of the

-The children of the Sunday School of the Church of the Good Shepherd will have a Dime Party at the house of Mrs. H. M. Miller, on Newbern Avenue next Friday evening.

-The News will have a special reporter on the excursion to Richmond, which leaves Raleigh this morning. Capt. F. A. Olds, a reporter of fine reputation, will keep our readers promptly advised of the movements of the party each day.

-The nuisance of the cows on the public streets is not abated, and is a matter that should receive the attention of the city authorities. It is hoped the new Board of Aldermen will take hold of the question and keep the filthy, dangerous beasts off the streets.

-There are entirely too many ob structions on the sidewalks in this city, and the interference of the authorities is necessary to give pedestrains a fair show. Boxes, benches, etc., are always in the way, and out in the streets there is always a lot of rubbish.

The Graded School Tax.

The people of this township yesterday voted by an overwhelming majority to levy the tax of one-tenth of one per cent. for the support of the Graded Schools. The vote against the levy was so small as to be insignificant.

This morning Rev. Thomas H. Pritchard, D. D., of the First Baptist Church, goes down to Wake Forest, to unite in the holy bonds of matrimony Mr. William Jenkins, the postmaster of Charlam Jenkins, the positinaster of Char-lotte, to Miss Nannie Mangum, a daugh-ter of Priestly H. Mangum, Esq., of this county. The pair will leave to-morrow for Atlanta, Ga., and will attend the Southern Baptist Convention

Southern Baptist Convention. Rev. Dr. Pritchard leaves to-morrov for Atlanta, Ga., to attend the Southern Baptist Convention which assembles there Thursday. It promises to be the largest convention of this Church ever held in the South. North Carolina will be well represented, Rev. J. C. Dur-ham, of Durham; Rev. A. C. Dixon, of Chapel Hill, and others, will attend. Some twenty ministers will go from this State, and a great number of

Row in a Lunatic Asylum.

All the officers of the State Lunati Asylum of Texas, at Austin, have re signed their positions on account of some misunderstanding with Gov. Roberts, the Executive. There are some 300 patients in the Asylum, and these are now deprived at one swoop of the care of all their old attendants. The Superintendent of the Institution is Dr. D. R. Wallace, who is a native of this State, and a graduate of Wake Forest College. He proposes to open a private asylum at his former home at Waco,

A Horse Killed.

Yesterday afternoon a bay horse be longing to Mr. J. P. Gulley was loose on Lenoir street. On that street, at the point where Salisbury street crosses it one of the large new fire cisterns is being excavated. The horse, which was a fine animal, ran at speed down Lenoir street, and breaking down the flimsy barrier surrounding the cistern, feil neadlong into its depth of eighteen feet The fail threw the horse some twenty feet forward, and when he struck the bottom his neck was instantly broken. The horse was blind in one eye, and ran against the timbers of the railing on this account, it is said. A great crowd gathered to view the sight, and the accident was explained in a dozen different ways. It is not known whether a suit for damages will be instituted or not.

County Commissioners. The Board held its regular monthly meeting on yesterday. Present, Mr. Chairman Poole, and Messrs. Allen, Brown, Jinks and Jones.

The business transacted was of routine order mostly, being the allowing

of accounts, granting license to retail liquor, relief from payment of erroneous taxes and aid to outside poor. G. A. Altord was appointed Assesso of taxes for Buckhorn township, in place of M. B. Royster, declined, with J. P. Goodwin assistant. C. B. Root was appointed Assistant

Raid on Distilleries.

Special Agent Kellogg and Deputy Collector Sorrell have just returned from a regular raid through Chatham, Moore and a portion of Orange. They met with good luck, having found four illicit distilleries, of which they de-stroyed the stills and fixtures. No liquors were found, all having been removed. Col. Kellogg reports that the blockade business in this District is being pretty well destroyed, as but few stills are now running. The officials have been indefatigable in their searches after counterfeiters and distillers, and have about rid this section of them The extent to which both these nefari ous pursuits were carried on in this the metropolitan district, was not known until some months ago, and it has taken hard work to put down the offenders.

Gold in Randolph.

An excitement of unusual extent prevails now in Randolph county, which resembles that at the famous mines at Leadville, Colorado. The dis-covery of fresh gold deposits has just een made, and these are proving to be exceptionally valuable in the precious metal. Before the war the mines in Randolph were noted for their production of gold. The Gray, Russell and Cagle mines were extensively worked, with the best machinery, and paid big dividends. There were also an im nense number of smaller mines, which brought wealth to the workers. These were all operated until the war put a top to all such things. It is not worth while for North Carolinians to go to the far west in search of gold, when they have in their own State such rich op portunities. If the mines of this State were properly developed, and an amount of energy equal to that shown n the West were shown, the results would be such as to gratify the mos ardent miner.

Put Away in Jail. His Honor the Mayor yesterday the case of Gus Coleman colored, for breaking into the store of Johnson & Barbee, on Wil nington street, some two weeks ago It will be remembered that the thier entered by means of a rear window in the second story, and got from th store \$6,25 in cash and a silver watch. He was caught by reason of being ound with this watch in his possession Yesterday he gave no satisfactory ac count of how he came to have it in his ossession, and the evidence was such as to show his guilt very clearly. was put in jail in default of \$500 bail. o appear at court. Gus is a negro of bac character, and is no doubt one of the gang of robbers who infest the city and whose daring operations on Wil nington street have been noted. It is to be hoped that the new lot of thieves may not be as successful as the old set in escaping the justice they so richly de serve. Show such rascals no mercy out put them through by daylight.

Magistrate's Court. The temple of justice over which Justice M. B. Barbee so gracefully pre sides was crowded yesterday, and he had quite a number of cases to dispose of. A black ward of the nation, Lem Young by name, was up for the larceny of wearing apparel from the trunk of one Mary Gill, a colored sister. Lem

was clearly guilty of the offense, and was required to give bail for his appear ince at Court. Mary Gill was then tried herself for having committed a forcible trespass on the premises of Lem Young and m-jured some of his property. There was no question as to the guilt of Mary, and

she too had to put up bond for appearance likewise.
These (wo bad people, Lem and Mary, were next tried for living in amateur matrimony, the law not recognizing he bonds which joined them together pon this charge both were adjudged guilty and were made to give bonds for appearance. The Justice gave each a bromo for making so much business or him, and then gave them the grand bounce.

Organization of the County Board o

Health. On vesterday, in pursuance of section of an act entitled "An act supplemental to an act creating a State Board of Health," ratified on the 14th day of March, 1879, certain of the physicians ligible to membership in the State Medical Society and the county comnissioners (Mayor Manly and County Surveyor Scott, the other members be ng absent) met at the Court House, in

Raleigh, and was called to order. The following physicians, eligible as aforesaid, were present, to wit: J. B. Dunn, George W. Graham, R. B. Haywood, P. E. Hines, A. W. Knox, R. H. ewis, William Little, James McKee

W. I. Royster. W. R. Poole, Esq., chairman of the county commissioners, acted as chair

Dr. James McKee read the act herein before alluded to.
On motion, R. B. Haywood, M. D., was unanimously elected president of the Board of Health of Wake county, and W. W. White was elected secretary o said Board. These officers took their

eats as such. On motion, an election was gone into or Superintendent of Health, to serve for two years. James McKee, M. D., having been nominated, a ballot was taken, when it appearing that Dr. James McKee had received 9 votes and W. Knox, M. D., one vote, Dr. McKee was declared elected.

On motion of P. E. Hines, M. D., the Board adjourned, subject to the call of R. B. HAYWOOD, M. D., Pres't. W. W. WHITE, Secretary.

The New Postal Law.

The new law relating to the classifiation of mail matter and rates of posage thereon went into effect May 1st The following is a summary of its leadng provisions:
All mailable matter is divided into

our classes, viz: First, writen matter; second, periodical publications mailed by puonshers or news-agents; third niscellaneous printed matter; fourth merchandise was included in the third There is no change in the rates of ostage on letters or postal cards, but

the postmaster-general is authorized to furnish for public use a "double postal card" that may be forwarded and reurned to the writer if not delivered, said cards to be sold at two cents apiece. These cards have not yet been issued by the department.
On second-class matter the rate of

postage will be uniform at two per cents per pound, and at this rate sample coies may be sent from an office of pubication or from a news agency to actual subscribers or to other news igents. The rates for the delivery of cond-class matter at a letter carrier office are unchanged, but publishers are required to send to the office matter for delivery by carriers separate from that for delivery through the boxs

of the office.

Third class matter embraces books, ransient newspapers and periodicals, circulars and other printed matter not second class proof sheets, corrected proof sheets and manuscrspt accompanying the same. The rate of postage is one cent for each two ounces or fractional part of two ounces.

Fourth-class matter embraces all mailable matter not included in the other three classes, rate of postage one cent an ounce or fraction thereof. The maximum weight is four pounds, but a single book weighing more is mailable. A simple dedica ion may be written upon the cover or blank leaves of any book or of any printed matter of the third class. The iate and name of the sender of a cir cular, as well as the name of the person

addressed, may be written therein. No mail matter upon which postage is due can be delivered until special consultation, as provided by law. He stamps to be furnished to postmasters also me: the physicians as a member of by the department, are affixed and cancellved equal in value to the amount The Board adjourned to meet at the of postage due. The penalty prescribed for failing to affix the stamps is a fine The City of Oaks.

"The only genuine Bock Beer is from the Lion Brewery, of Cincinnati," (so says Mr. M. Bill, of course this is the only brewery in the world). If the people will try, they will find that A. W. Fraps, agent for Bay View Brewery. has at least, as good, not only Bock, but also the very best Lager Beer, which he sells at wholesale and retail. This Beer will also be found at Jacob Higgs', V. D. Lawrence's, Adam Hang's and at J. S. Taylors, and at most of the bars of middle North Carolina.

Notice. I hereby notify my friends and cus-tomers who have been sending and calling on me for wines and liquors, will not keep any more liquors on hand of any description, but will continue to supply all with the best greceries at the lowest prices. Call and see me. J. W. Watson.

The Celebrateden SevSprings Inco and Alum Mass.
This is decidedly the most useful, be sides being the most efficient Family Medicine ever placed within the reach of any people. Its reputation extends far and wide, and its great popularity is due entirely to its own merits. For relieving Sick and Nervous Headache t may be truly said, to have no equal Dyspeptics find it just the remedy for their troubles. Mothers and daughters have long since discovered in its use a "panacea" for their worst ills; and now we have the testimonies of two eminent ministers of the gospel, from Southern cities, setting forth its specific

effects in other more dreaded and troublesome diseases Rev. John F. Mayne, Theological Seminary, Columbia, S. C., writes: "Am afflicted with that terrible disease, 'Diabetes;' am using the 'Seven Springs Mass' with a considerable degree of relief; is the only remedy I have yet found to suit my case; want to continue its use until a cure is effected if possi-ble. Send worth of the enclosed P. O. order immediately.
